NEW STOP SIGN AT U OF MONTANA

IMMEDIATELY

Beginning May 12, vehicles traveling south on the University of Montana perimeter drive east of Aber Hall will have to stop and give the right-of-way to vehicles going in other directions.

The UM Physical Plant is erecting a new stop sign southeast of Aber Hall as a safety measure to minimize the chance of a vehicle accident. So far there have been no traffic mishaps at the corner rounding the drive, which is adjacent to parking lot T behind the University Center, but there have been several close calls.

"We want to avoid putting up any unnecessary traffic control signs," Ed Russ said, "so motorists also should be sure and stop before entering the perimeter drive from all parking lots, including lot T." Russ is chief of Physical Plant Protection

ECOLOGIST SPEAKS WEDNESDAY AT UM

A Colorado ecologist will discuss the "Dilemmas of Development" Wednesday (May 7) at the University of Montana as the fifth and final guest speaker in the UM Business and Science Lecture Series.

Dr. Alfred G. Etter of Aspen, Colo., an ecologist with the Defenders of Wildlife, will give his main address at 8p.m. in the UM Music Recital Hall. He also will speak informally at 2 p.m. Wednesday in room 215 of the UM Women's Center. Both addresses are open to students, faculty and the general public without charge.

Dr. Etter's visit to the campus is supported by a grant from the S & H Foundation, which is sponsored by the Sperry and Hutchinson Co. The Missoula Chamber of Commerce also has provided additional financial support for the series. Series coordinator is Dr. George J. Brabb, a UM professor of management.
